

FIBO's Home

This is the public FIBO Wiki. FIBO™ is the open industry “common language” standard for defining the terms, facts and relationships associated with financial contracts. FIBO™ covers financial instruments (product reference data), market data pricing and financial processes in 30 FIBO Domains. This Wiki links to FIBO pages as they are created and made publicly available. This Wiki also points to pages managed by a FIBO Content Team (FCT) responsible for each of the FIBO Domains as they are proposed for update. Individuals may request to be added to an FCT by sending an email to [Robert Trypuz](mailto:Robert.Trypuz@edmcouncil.org), or contacting any other member of the FIBO Leadership Team listed below.

FIBO is a project of the Enterprise Data Management Council www.edmcouncil.org. The EDM Council is a 501(c)(6) non-profit trade association founded by the financial industry to elevate the practice of data management as a business and operational priority. The Council is a leading advocate for the development and implementation of data content standards and the publication of data management best practices.

The figure below shows **FIBO Domains**. All Domains are published as FIBO Development. FIBO Domains Fleshed for particular Use Cases are published as FIBO Production. These include Derivatives, Loans, Indices and Indicators, Securities, Business Entities, Financial Business and Commerce and Foundations.

The FIBO Primer https://spec.edmcouncil.org/fibo/doc/20170930_FIBO_Primer.pdf provides the most user friendly way to become Familiar with FIBO. <https://spec.edmcouncil.org> provides easy access to all FIBO development tools and content.
