

Rating Concepts and Model

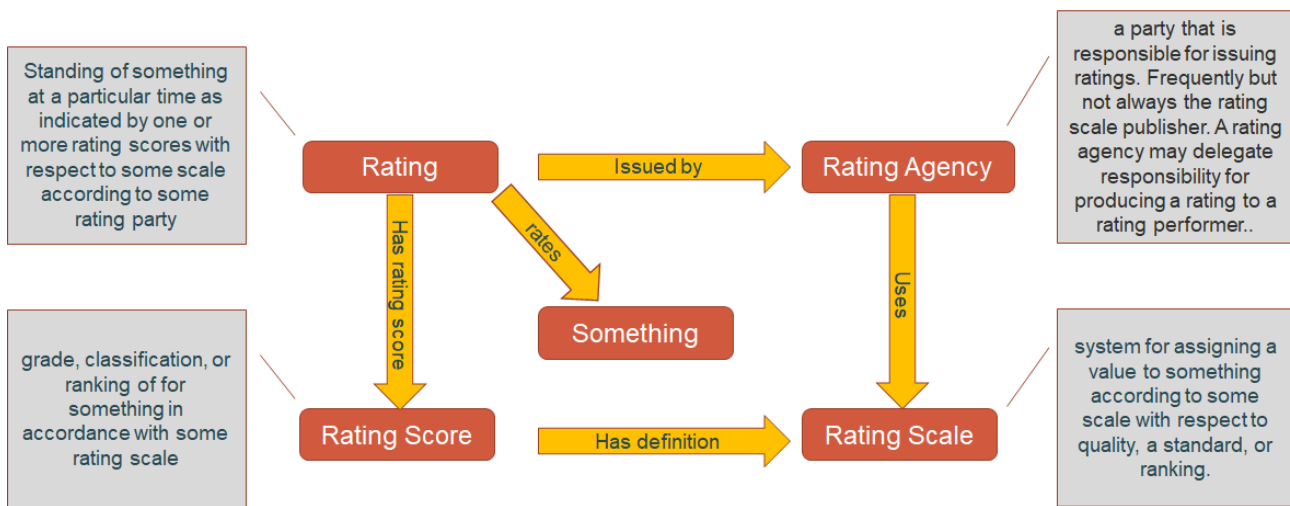

Set of Ratings Ontologies

Generic ratings concepts can be specialized for specific rating requirements such as credit or performance ratings. The initial work focuses on the generic ratings concepts.

Strawman Taxonomy of Ratings Ontologies

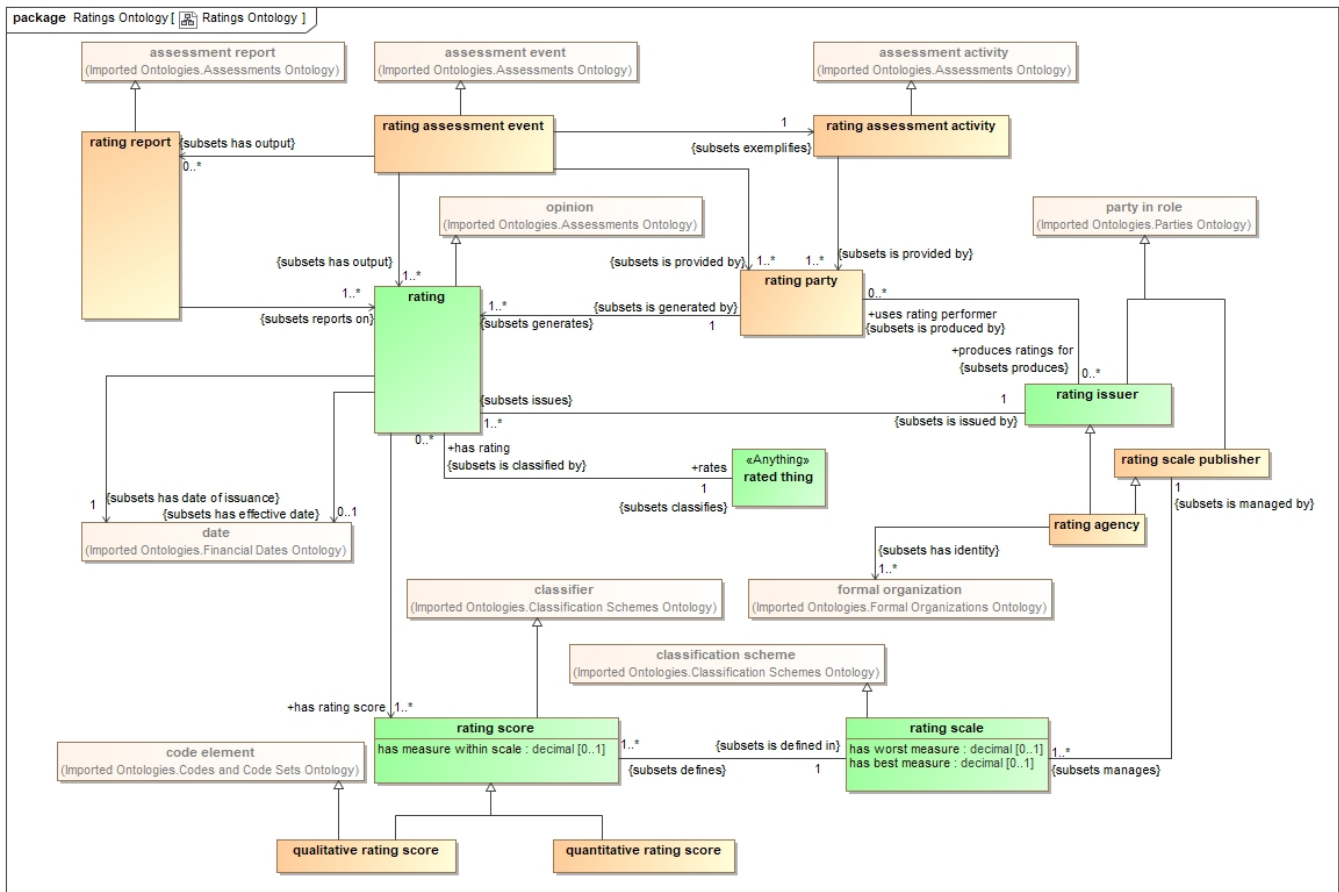

Essential Concepts

Class Diagram of Generic (foundational) Rating Concepts (FIBO Production)

The following diagram shows the current draft of ratings concepts in [UML notation](#).

Recent Change log

- added "has best measure" & "has worst measure"

Concept Definitions

The definitions spreadsheet defines each class and property used in the ontology.
