Proceedings:

Reviewed current statistical quantities – need percent and percent change. Dan and Lucy will send definitions. Also should add arithmetic and geometric mean from wikipedia. Also for error and sampling error, etc.

Also reviewed existing indicators and found 3 that BLS publishes that we should have but don't: payroll employment, productivity, and average hourly wage - StatCan also publishes these and Lucy will send the link for productivity.

Next week: start modeling some individuals to see what we are missing.

Send David the StatCan page to see if he can identify which other indicators are of interest to State Street. Also check with Mike Pool.
